PROFESSIONAL SUMMARY

AI Automation Specialist and Tech VA with 7+ years of remote operations experience, the last several spent designing and shipping production automation systems for founders and small businesses. Background in Amazon account management provides real operational fluency, not just tool knowledge — every workflow is built, tested, documented, and handed off so clients can own and extend it.

PROFESSIONAL EXPERIENCE

AI Automation Specialist / Tech VA

2026 — Present

Independent — Global Clients

- Design and ship production automations across n8n, Make.com, and Zapier for founders and small teams.
- Build AI agents with memory, RAG, and multi-model fallbacks integrated into Messenger, Telegram, and custom webhooks.
- Deliver documented handoffs so clients own and can extend the systems.

Tools: n8n · Make.com · Zapier · Claude · OpenAI

Amazon Account Manager & Virtual Assistant

2019 — 2025

E-commerce Clients

- Managed Amazon Seller Central operations: listings, inventory, PPC oversight, and case management.
- Layered automation on top of daily operations — pricing checks, review tracking, and reporting to Sheets.
- Built the operations fluency behind today's automation work.

Tools: Amazon Seller Central · PPC · Inventory Ops
